### About me

A creative and entrepreneurial professional transitioning into tech, holding a graphic design degree, art training from Florence, and a recent full-stack development HBO function certificate. Alongside my technical development, I also run a small business teaching art and now seeking a 32-hour junior developer role to build an ambitious IT career, combining my design expertise and coding knowledge to create beautiful, efficient user experiences. I am keen to bring this unique blend of creative and technical talent to an innovative team.
